Be part of an exciting and growing team that continues to exceed expectations and transform to keep pace with the ever-changing global industry.

How do you fit in?

The Capital Markets & Corporate Planning team is looking for a Business Analyst to join their team. Reporting to the Senior Corporate Planning Advisor, the successful candidate will be a self-starter with the ability to convert data into clear messages and utilize long-term planning models to conduct economic and financial analysis throughout the year. In addition, this role will be expected to work collaboratively with the technical and corporate planning teams to assess significant strategic initiatives.

What you'll be doing:

- Transforming data and technical information into messaging that can be broadly understood and utilized by the business to inform decision making.
- Working collaboratively with technical teams, utilizing long-term plan and budget inputs to run scenario analysis on a portfolio of projects.
- Running economic evaluations for justification, tracking and lookbacks.
- Evaluating execution of the corporate plan on an economic and financial basis.
- Incorporating ESG and climate change initiatives into economic runs/analysis to understand how an array of outcomes can affect our business.

- Developing visual analytics (through PowerBi, Spotfire, etc.) to provide transparency on performance from a corporate financial level down to a project level.
- Collaborating with the Corporate Planning team to enhance our monthly reporting process.
- Utilizing visual analytics to illustrate market performance as well as comparative analysis versus peers.

What you must have:

- 3-8 years of progressive technical and financial/strategic experience within the E&P space – an understanding of Capital Markets would be considered an asset.
- Bachelor's Degree in Commerce, Engineering, Economics or related post-secondary education.
- Critical attention to detail and formatting.
- Power user of Excel and PowerPoint.
- Experience using visual analytics software, i.e. PowerBI, Spotfire or comparable.
- Able to communicate and translate data and information into a visual context.
- Previous experience with portfolio management software such as /ValNavAucerna/3esi would be an asset.
- Results Oriented - demonstrates a sense of urgency and strong commitment to achieving goals; well-organized and detail-oriented to deliver high quality work under tight deadlines.
- Adaptable - capable of working and adapting in challenging, fast paced environments and quick to learn new skills.
- Collaborative - works effectively across the organization and with partnerships to achieve corporate and personal goals.
- Innovative - champions new ideas; creates an environment that supports innovation & creativity.
- Problem Solver/Decision Maker – demonstrates excellent problem-solving skills and effectively examines events, issues, problems to generate solutions.
- Leads with Engagement – builds commitment to a plan of action aligned with organizational goals.
- Excellent Communication Skills – demonstrates effective interpersonal and communications skills, including oral and written, as well as good presentation skills; Spanish fluency would be considered an asset.
- Team Player – shares knowledge, works effectively within a team environment and demonstrates technical leadership while working with other junior staff and other team members; enthusiastic, confident and develops strong working relationships quickly.
- Self-Starter – requires minimum supervision and direction to efficiently complete work assignments; has a roll-up-your-sleeves attitude toward work.

Where you'll be working:

This position is located in our Head Office in Calgary, Alberta.
