### Why work at Parex Resources Inc?

The Parex team is always looking to add top talent to our organization who share our values and are bring capabilities to deliver our business safely and with integrity aligned with our ESG commitments in the areas where we operate.

Parex Resources is a publicly-traded exploration and production company. With its headquarters in Calgary, Canada, and its operations in Colombia, the company has an over 10-year history of delivering shareholder value. Highly profitable, the company possesses a strong balance sheet and is extremely well positioned to continue growing organically.

As we shape the Parex story, we are grounded in making the right decisions for all stakeholders, including the communities where we live and work, environmental stewardship, our employees and investors. Be part of an exciting and growing team that continues to exceed expectations and transform to keep pace with the ever-changing global industry.

### How do you fit in?

This 4-month summer term will provide you with professional work experience, build transferable skills and will provide you with an opportunity to learn the practical application of your field of study.

### What you'll be doing:

The successful candidate will provide a characterization of one of the producing reservoirs in the VSM basin of Colombia. Data sources will include well reports, field reports, published literature and the candidate's own work with the available well data. Working with the Parex mentor and the team, the candidate will propose the depositional framework for the formation through a model and maps. In addition, the candidate will perform log evaluation and compile the results into maps of various reservoir properties to provide the basis for prospect evaluation anywhere in the basin. Finally, working with the geophysicist, the candidate will address the complex interaction of depositional and erosional controls on the reservoir potential by presenting a map of the actual preserved thickness.

### **What you must have:**

- Results Oriented - demonstrates a sense of urgency and strong commitment to achieving goals; well-organized and detail-oriented to deliver high quality work under tight deadlines
- Adaptable - capable of working and adapting in challenging, fast paced environments and quick to learn new skills
- Collaborative - works effectively across the organization to achieve corporate and personal goals
- Innovative - champions new ideas; creates an environment that supports innovation & creativity
- Problem Solver/Decision Maker - demonstrates excellent problem-solving skills and effectively examines events, issues, problems to generate solutions
- Excellent Communication Skills - demonstrates effective interpersonal and communications skills, including oral and written, as well as good presentation, report writing and cross-cultural skills
- Team Player - shares knowledge, works effectively within a team environment and demonstrates leadership while working with other team members; enthusiastic, confident and develops strong working relationships quickly. Ability to develop trust, respect and teamwork within and outside the organization
- Self-Starter & Accountable - ability to work independently and unsupervised, and in collaboration with others, as required, to efficiently achieve work objectives; has a roll-up-your-sleeves attitude toward work

### **Where you'll be working:**

This position is located in our Corporate Headquarters at 2700 Eighth Ave Place, West Tower in Calgary, Alberta T2P 1G1, Canada. For the protection of our workforce, we have implemented a mandatory COVID-19 Vaccination Policy.
