

RESERVOIR ENGINEER - EXPLORATION

Reporting to:	VP - Exploration
Department:	Exploration
Location:	Calgary, Alberta
Posting Number:	PXT20240515-1

Why work at Parex Resources Inc.?

The Parex team is always looking to add top talent to our organization who share our values and bring capabilities to deliver our business safely and with integrity aligned with our Environmental Social & Governance (ESG) commitments in the areas where we operate.

Parex Resources is a publicly-traded exploration and production company. With its headquarters in Calgary, Canada, and its operations in Colombia, the company has an over 10-year history of delivering shareholder value. Highly profitable, the company possesses a strong balance sheet and is extremely well positioned to continue growing organically.

As we shape the Parex story, we are grounded in making the right decisions for all stakeholders, including the communities where we live and work, environmental stewardship, our employees and investors. This includes a robust Total Rewards package for all of our employees, to ensure that we continue to attract and retain top talent. Be part of an exciting and growing team that continues to exceed expectations and transform to keep pace with the ever-changing global industry.

How do you fit in?

The Reservoir Engineer will collaborate with Exploration sub-teams to develop prospects, devise strategies, plan and execute Exploration projects, evaluate results, and track and report key metrics. The objective for this role is to improve prospect assessment by integrating engineering data early in the process.

What you will do:

- Assess Ultimate Recovery and Production Potential: Use all of the available data to create viable, wholly integrated technical interpretations that can be used for the assessment of Parex's subsurface opportunities.
- Analyze Testing and Completions Data: Provide technical analysis of testing and completions data as it pertains to Parex Exploration activities. Design testing programs for Parex wells.
- Economic Evaluation: Work with Geoscience and Engineering staff to provide economic evaluations of Parex opportunities.
- Portfolio Management: Participate in the management of a portfolio of subsurface opportunities. Work with the Engineering and Corporate Planning groups to ensure consistency.
- Project Planning: Participate in the strategic and tactical planning for Parex projects.

What you must have:

- Minimum of a Bachelor of Science degree in Petroleum Engineering or a related field.
- APEGA professional membership is beneficial, but not required.

- Minimum of 10 years' related oil and gas industry experience.
- Well rounded background in Exploitation Engineering.
- Experience in Conventional Exploration and Production is preferred.
- Willingness to work with variable quality (sometimes very old) and quantities of data.
- Ability to participate effectively in multi-disciplinary, collaborative work groups.
- Excellent communication skills, verbal and written.
- Strong commercial/economic acumen.
- Superior time management, multi-tasking, and prioritization skills.
- Proven analytical, reservoir characterization and evaluation skills, with the ability to apply creative and innovative approaches to your work.

Where you'll be working:

This position is located in our Corporate Headquarters at 2700 Eighth Ave Place, West Tower in Calgary, Alberta T2P 1G1, Canada.
